October 1, 2013

The Honorable Jeremiah W. (Jay) Nixon
Missouri Governor
Capitol Building, Room 216
Jefferson City, MO 65101

Dear Governor Nixon:

The State Board of Education and the Department of Elementary and Secondary Education are pleased to submit this budget for your consideration.

Our budget contains some requests that are critical to the future of education in our state. As we work to move Missouri to the top 10 performing states in the nation by the year 2020, our commitment to access, accountability and achievement has never been more important.

We encourage you to continue your support of PK-12 education through support of the foundation program, school improvement efforts and early childhood education. Our districts have done a good job of managing budgets in recent years. The importance of fully funding the foundation program to support this work can't be overstated.

In addition, the Department is committed to providing the support necessary for schools and districts to improve. Getting a portion of our school improvement budget restored this year would enable us to do a better job serving the children who most need our help.

We know that education has always been a priority for the State of Missouri and for you as Governor. We appreciate your continued support.

Sincerely,

A handwritten signature in black ink that reads "Chris L. Nicastro". The signature is written in a cursive, flowing style.

Chris L. Nicastro
Commissioner of Education

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The appropriation amount for the Fiscal Year 14 pay plan was based on the pay increase beginning in January, 2014 for the final twelve pay periods of the fiscal year. This requested amount is equivalent to the remaining twelve pay periods in order to provide the core funding necessary for a full fiscal year.

2. CORE DESCRIPTION									
<p>The education funding formula is the mechanism used to distribute funds to eligible education agencies. It was adopted in SB 287 (2005) and went into effect July 1, 2006. The formula follows a student needs philosophy and seeks to assure that sufficient funds are available in all districts to provide an adequate education for all students. The formula is: weighted average daily attendance x state adequacy target x dollar value modifier - local effort = state funding. The formula combines the funding from FY 2006 for Equity, Line 14, Exceptional Pupil Aid, Remedial Reading, Gifted, Fair Share, and County Foreign Insurance to determine the base amount for the calculations.</p> <p>The weighted average daily attendance is the average daily attendance of the regular school term and summer school plus additional adjustments for counts for students eligible for free or reduced price lunch, students receiving special education services and students identified as Limited English Proficient. The initial state adequacy target was a calculation of the average 2003-04 expenditures per average daily attendance of the districts identified as successful by meeting all performance standards on the Missouri School Improvement Program Annual Performance Report. The calculated state adequacy target for FY 2007 through FY 2010 was \$6,117. The calculated state adequacy target was \$6,124 for FY 2011 and \$6,131 for FY 2012. The calculated state adequacy target is \$6,423 for FY 2013. The calculated state adequacy target for FY 2014 was \$6,716. The calculated state adequacy target for FY 2015 will be \$6,716. The dollar value modifier provides an adjustment to recognize the relative purchasing power of a dollar. The local effort deduction is a calculation of certain actual revenues received in 2004-05 and the amount of tax revenue the district would have received at the \$3.43 performance levy applied to the 2004 assessed valuation.</p>

PROGRAM DESCRIPTION

Department of Elementary and Secondary Education

Foundation - Equity Formula

Program is found in the following core budget(s): Foundation-Equity Formula

1. What does this program do?

The education funding formula is the mechanism used to distribute funds to eligible education agencies. It was adopted in SB 287 (2005) and went into effect July 1, 2006. The formula follows a student needs philosophy and seeks to assure that sufficient funds are available in all districts to provide an adequate education for all students. The formula is: weighted average daily attendance x state adequacy target x dollar value modifier - local effort = state funding. The formula combines the funding from FY 2006 for Equity, Line 14, Exceptional Pupil Aid, Remedial Reading, Gifted, Fair Share, and County Foreign Insurance to determine the base amount for the calculations.

The weighted average daily attendance is the average daily attendance of the regular school term and summer school plus additional adjustments for counts for students eligible for free or reduced price lunch, students receiving special education services and students identified as Limited English Proficient. The initial state adequacy target was a calculation of the average 2003-04 expenditures per average daily attendance of the districts identified as successful by meeting all performance standards on the Missouri School Improvement Program Annual Performance Report. The calculated state adequacy target for FY 2007 through FY 2010 was \$6,117. The calculated state adequacy target was \$6,124 for FY 2011 and \$6,131 for FY 2012. The calculated state adequacy target is \$6,423 for FY 2013. The calculated state adequacy target for FY 2014 was \$6,716. The state adequacy target for FY 2015 will be \$6,716. The dollar value modifier provides an adjustment to recognize the relative purchasing power of a dollar. The local effort deduction is a calculation of certain actual revenues received in 2004-05 and the amount of tax revenue the district would have received at the \$3.43 performance levy applied to the 2004 assessed valuation.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapter 163, RSMo

3. Are there federal matching requirements? If yes, please explain.

No.

4. Is this a federally mandated program? If yes, please explain.

From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The formula combines the funding from FY 2006 for Equity, Line 14, Exceptional Pupil Aid, Remedial Reading, Gifted, Fair Share, and County Foreign Insurance to determine the base amount for the phase-in and hold harmless calculations. This formula has been phased in over a seven-year period. The amount requested is based 100% on the current formula.

2. CORE DESCRIPTION

Section 163.044, RSMo authorizes specific funding for small school districts, defined as districts with average daily attendance of 350 students or less in the preceding school year. The required appropriation of \$15 million will assist these districts in funding activities including but not limited to distance learning, extraordinary transportation costs, rural teacher recruitment, and student learning opportunities not available within the district. The distribution of the money requires that \$10 million be distributed on an equal amount per average daily attendance to the eligible districts and \$5 million be distributed on a tax-rate-weighted average daily attendance basis to the eligible districts with the current year operating levy for school purposes equal to or greater than \$3.43.

2. CORE DESCRIPTION									
Section 165.231, RSMo mandates that students who live more than 3 1/2 miles from the school they attend must be provided transportation; also students who live 1 mile to 3 1/2 miles may be transported with state assistance. Section 163.161, RSMo establishes the state transportation aid program that reimburses school districts for a portion of their pupil transportation service.									
Equal access through transportation enhances the equitable opportunity to learn for all students. School districts transport pupils and are partially reimbursed by the state the following year for the previous year's transportation costs. The reimbursement percentage is a maximum of 75% of a school district's cost for transporting eligible pupils. A negative adjustment, no greater than 30%, is made to a district's reimbursement for cost efficiency when a district spends more for its transportation service than similar districts spend. The core request will provide approximately 25% reimbursement to local boards of education for the eligible costs of transporting students as required by state law.

2. CORE DESCRIPTION

The Individuals with Disabilities Education Act (IDEA) requires a state that receives funding under the Act to assure a Free and Appropriate Public Education (FAPE) to children with disabilities ages 3-21. Children with disabilities aged three and four are provided FAPE and special education services through the Missouri Early Childhood Special Education (ECSE) Program. Pursuant to Section 162.700, RSMo, ECSE services are mandatory and program costs associated with these services are paid through state and federal appropriated funds. No local funds support this program due to a Missouri Supreme Court decision (Rolla 31 School District, et al, vs. State of Missouri, 1992). School districts are reimbursed the year following in which services were provided.

Note: In FY14, a one-time funding of \$10,099,750 from the MO Senior Services Protection Fund was put into this program in place of the same amount from the State School Moneys Fund. Per the budget instructions, this fund is to be core reduced for FY 2015 and replacement funding should be requested.

PROGRAM DESCRIPTION

Department of Elementary and Secondary Education

Foundation - Early Childhood Special Education (ECSE)

Program is found in the following core budget(s): ECSE

1. What does this program do?

The ECSE Program reimburses districts for program costs associated with providing special education services to children with disabilities, ages 3-5 (but not yet kindergarten eligible).

School districts are reimbursed the following year in which services were provided.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

IDEA - 20 U.S.C §1400 et seq., as amended in 2004; Part B Regulations - 34 CFR 300-301; RSMo Section 162.700; Supreme Court Decision (Rolla 31 School District, et al, vs. State of Missouri, 1992).

3. Are there federal matching requirements? If yes, please explain.

Yes. There are Maintenance of Effort (MOE) requirements to appropriate the same amount of state funds for the program as in the previous year. The threshold must be maintained or the state will forfeit federal funding each year until the original threshold is maintained. ECSE state funding is used in the MOE calculation to determine eligibility for IDEA federal funds.

4. Is this a federally mandated program? If yes, please explain.

Yes. The state is federally mandated as long as it applies for Part B funding through IDEA.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

PROGRAM DESCRIPTION

Department of Elementary & Secondary Education

Foundation Early Childhood Development

Program is found in the following core budget(s): Foundation Early Childhood Development

1. What does this program do?

Parents as Teachers (PAT) provides parent education through four core components including: personal visits, group meetings, developmental screenings, and resources. During personal visits parent educators work with parents providing developmental information, coordinating parent child activities, and addressing any parent concerns. Group connections allow parents to meet with other parents in a group setting to hear and discuss parenting issues. This particular component is very beneficial to teen parents who feel more comfortable in group settings. Developmental screenings provide information regarding a child's developmental progress. This will allow possible concerns or delays to be caught early and allow time for intervention before the child enters the kindergarten classroom. The last component is the resources. To effectively serve families it is critical to have resources identified in the community that can support parents such as WIC, Abuse Shelters, etc. The PAT program helps parents to become better observers of their children and have an understanding of their role as their child's first teacher.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Section 178.693, 178.691-178.699, RSMo.

FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: 50141C BUDGET UNIT NAME: Foundation - State Board Operated Programs	DEPARTMENT: Elementary and Secondary Education DIVISION: Special Education
1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.	
DEPARTMENT REQUEST	
Budget flexibility is needed to continue providing mandated special education services to children with disabilities being served within the State Operated Programs (MSD, MSB, MSSD) in the most efficient and effective way possible. This may mean having to contract for services when there is a personnel shortage, transportation issues, food service problems, etc. From 0101-0015 PS \$27,723,037 x 25% = \$6,930,759 From 0101-2298 EE \$12,884,395 x 25% = \$3,221,098 Total Request \$40,607,432 \$10,181,857	
2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.	
PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED	CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED
\$2,205,000	\$2,000,000
3. Please explain how flexibility was used in the prior and/or current years.	
PRIOR YEAR EXPLAIN ACTUAL USE	CURRENT YEAR EXPLAIN PLANNED USE
Flex transfers were utilized to pay for contracted services, increasing transportation costs, increasing food services, and the costs of related services for students with disabilities.	In order to provide labor-intensive services and residential programs at the state operated programs, it is essential to have appropriate staff on-duty whenever students are present. Depending on a variety of factors, the programs must vary between utilizing contractors, temporary services, and other vendors in place of FTE when the latter cannot be hired immediately or at all. It is also necessary to be able to purchase equipment to address the needs of current and new students whose requirements can change day-to-day.

Department of Elementary & Secondary Education**Virtual Education****Program is found in the following core budget(s): Virtual Education****7a. Provide an effectiveness measure.**

One of the major strengths of MoVIP is the flexibility to allow students, who are ill, to work when they are well enough to work and to take some time away from their classes when they are not well. Also, these students can take computers to different locations, including the places they are receiving treatment, and work when they feel well enough to do their class work.

MoVIP does not award high school diplomas so it is imperative to work with school districts to ensure students are earning the proper credits for graduation. Many school districts have expressed appreciation for the MoVIP program because it has helped their medically fragile students earn credit. Each year, school districts request state funded seats for medically fragile students.

7b. Provide an efficiency measure.

-176 courses in grades K-12 including:

Comments from Missouri Fine Arts Academy students and parents:

My daughter returned home from MFAA with a level of confidence in her abilities as an artist that truly amazed and blessed me.

The staff members, from her RA to all her instructors, were professional, dedicated and passionate.

Awesome program. Our son achieved a level on confidence and maturity that was amazing in just three short weeks. We are very grateful he had this opportunity to grow and excel.

I learned how to adapt quickly to interdisciplinary situations.

MFAA made me realize that I can make my goals a reality with enough drive and determination

MFAA will help me be more confident in college and in the career I pursue. I learned to work well with others and that is a great skill to have in life.

I gained so much confidence and acquired so many important life skills such as collaboration, leadership, and teamwork.

MFAA made me realize that I can start working toward what I want right now. It inspired me to push myself harder in everything I do.

2. CORE DESCRIPTION

This program has been shown to significantly improve early literacy teaching and learning in the state of Missouri. The Missouri Statewide Early Literacy Intervention Program (MSELIP) has increased student performance on several Show Me Standards in the communication arts areas and on overall literacy achievement measures. During the past three years more than 52,768 at-risk students have been served by this high quality program. This program is administered by Southeast Missouri State University. For FY07, FY08, and FY09 the appropriation was \$500,000 per year. The FY10 appropriation was reduced to \$60,650 and \$1 was appropriated in FY11. The Lottery funds were released at the end of FY12 for the program. Southeast Missouri State University committed institutional funds (\$108,741 in FY10 and \$55,863 in FY11) to bridge programming after the dramatic cuts in state funding, which allowed this vital program to continue at a minimal level. However, increasing reductions in state appropriations has threatened the feasibility of continuing such institutional support and the viability of the program itself.

NOTE: As of 7/1/2013 this program was put into expenditure restriction by the Governor.

1. What does this program do?

The Missouri Statewide Early Literacy Intervention Program (MSELIP) improves early literacy teaching and learning in the State of Missouri. The program's primary target is children at risk of reading failure at the elementary level. This program has increased and will continue to increase student performance on several Show Me Standards in the communication arts area. It is the strongest research based program by federal guidelines (What Works Clearinghouse) for Tier III students (those who are the farthest behind their grade level peers).

This well researched, successful program teaches Reading Recovery® professionals and Early Literacy educators from all areas of Missouri how to improve teaching and learning for young students at risk of reading failure. This program for children is delivered in one-to-one and group lessons. Parental involvement is also included in this program as students take books home for practice at least 3-4 times per week.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Discussion: The letter identification assessment shows a variance in pre-test scores. The higher pre-test scores typically occurred with kindergarten students who entered the program mid-year. While 43% of Early Literacy kindergarten students recognized 20 letters or fewer at the beginning of their instruction, by the end of their program 54% of these students knew at least 51 letters. Eighty-six percent of kindergarten students knew at least 41 letters by the end of the year. Letter Identification showed a clear improvement from beginning of instruction to end of intervention.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The United States Department of Agriculture (USDA) Child Nutrition Programs (CNP) are federal entitlement programs. Each July 1, the USDA establishes rates of reimbursement, based on various Consumer Price Indexes, for each type of meal/snack/milk served (i.e. full price, reduced price, and free). Congress establishes the appropriation for the CNPs so that, nationwide, public and non-public schools will receive the established rate of reimbursement for each type of student meal/snack/milk served throughout the entire school year. Most schools would have to discontinue participation in CNPs if they did not receive the maximum amount of federal reimbursement they earned. Budget projections, based on projected student participation and projected federal reimbursement rates, indicate that the increased amount of federal reimbursement capacity needed is \$6,315,700.

From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)			
An increase of \$6,315,700 in capacity of federal reimbursement funds is requested. The cost estimate is based on the category of meals/snacks/milk multiplied by the estimated federal reimbursement rates. The USDA provides federal reimbursement for fresh fruits and vegetables served to students during the day.

6c. Provide the number of clients/individuals served, if applicable.

6d. Provide a customer satisfaction measure, if available.

Impact of not receiving the increase in federal funds:

Without the increase in federal funds the school districts and non-public schools will not receive all entitled federal reimbursement.

7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:

Timely payment of federal funds to school districts and non-public schools provides them the financial assistance necessary to be able to offer students nutritious meals.

On-site administrative reviews are conducted to monitor for program compliance. Technical assistance on program requirements and operation techniques/procedures is provided through on-site reviews, workshops, seminars, and by telephone. Assistance is provided to school food service personnel in menu planning and helping to ensure that nutritional goals are met. Technical assistance and on-site reviews aid school districts and non-public schools in operating efficient school feeding programs.

2. CORE DESCRIPTION

The condition of school buildings throughout the state varies dramatically. This program is designed to help improve the school buildings in the state by reducing the interest cost districts pay on general obligation bonds. The funding is for the administrative costs required to insure school districts can utilize the credit quality of the state. Since 1995, in excess of \$10 billion in general obligation bonds have been issued to school districts, thereby through this program, reducing the burden on district taxpayers an estimated \$200 million.

The Direct Deposit Program, established by SB 301 in 1995 and administered by the Missouri Health and Educational Facilities Authority (MOHEFA), provides for credit enhancement of school district bonds by authorizing the direct deposit by the State of Missouri of a portion of a school district's state aid payments to a trustee bank that in turn makes payment to the paying agent on the bonds. Section 164.303, RSMo, authorizes funds not to exceed seven million dollars per year to be transferred by appropriation to the School District Bond Fund from the Gaming Proceeds for Education Fund before transferring gaming money to the Classroom Trust Fund. The total \$7 million transfer has not been made since FY02.

2. CORE DESCRIPTION

Section 160.459, RSMo was passed in 2008 in SB 1170. This legislation created the Rebuild Missouri Schools Program to assist districts in paying the costs of emergency projects facilities severely damaged or destroyed due to an act of God or extreme weather events, including but not limited to tornado, flood or hail. The legislation created a new fund in the state treasury to be known as the Rebuild Missouri Schools Fund with the money for the fund being appropriated to it or collected in the fund.

The funding is used to only pay the cost of an emergency project. The amount of funding is not to exceed the cost of the project less any insurance proceeds or other moneys received by the eligible districts as a result of the damage. The district is to repay the interest free loan over not more than 20 years.

In 2008, funds were paid to Caruthersville school district after their school building was destroyed by a tornado. The above core was established by the legislature to assist the district in removing the debt from their books.

2. CORE DESCRIPTION

The federal grants and donations appropriation provides authority to accept and make use of federal grants and donations that may become available during the fiscal year. The department will notify the House and Senate budget committees and the Office of Administration regarding the application for, or acceptance of, any new financial assistance or grants. Having appropriation authority to readily accept and make use of federal grants and private donations as they become available at various times during the fiscal year results in school districts having more immediate access to available funding.

2. CORE DESCRIPTION

The various programs combined in Section 2.080 of the appropriations bill all deal with Early Childhood Education either directly or indirectly. Funds are for parent educator training (\$73,200 General Revenue and \$125,000 State Schools Moneys Fund). Child Care Development Block Grants that provide technical assistance to child care centers account for \$824,000 of the federal capacity. The remaining \$399,500 federal capacity is for the Child Development Associate (CDA) program which increases, enhances, and improves the quality of early child care and education programs by providing students enrolled in secondary, postsecondary, and adult career education programs the opportunity to obtain entry-level CDA certification and/or advanced degrees. The Missouri Preschool Program (MPP) provides funds to preschools to assist in the preparation of children for kindergarten. In FY13, the Missouri Preschool Program appropriation was reduced and moved by the Legislature to the Office of Administration (OA), HB 2005 Section 5.151. OA entered into a Memo of Understanding with the Department to continue making the MPP payments in FY2013. For FY2014, the MPP funds were transferred back to the Department.

7d. Provide a customer satisfaction measure, if available.

Direct Quotes Taken From Customer Satisfaction Survey:

"The grant has provided many enhancements for our program. The professional development we receive at the conferences and meetings we attend enhances the quality of care and enrichment we can offer our children and we are better able to meet the individual needs of our children. The grant funds also assisted the program to enhance and improve the quality of the children's experiences at the center through the purchase of a wide variety of materials for classroom activities and centers, a swing set designed for the younger children, safety mats which provide a large area for safe inside gross motor play, and materials for our take-home activity bags which parents check out. The grant has provided many resources that we could not have otherwise. The grant has been a tremendous help to our program".

"The CCDF grant has enhanced the early childhood program with the purchase and installation of a bike path. The addition of the bike path has provided physical motor opportunities not currently available and has allowed the center to meet national Association of the Education of Young Children (NAEYC) accreditation standards in the area of children's motor development. The professional development opportunities of attending Conscious Discipline training and Conference on the Young Years provided much needed information and training to assist the center staff with the challenging behaviors and special needs in our classrooms. The partnership with C.H.A.M.P.S. Assistance Dogs, Inc. has been successful with supporting our children with special needs and challenging behaviors. The four grant funded requests have enhanced our outdoor spaces and provided support through training and partnerships with our staff, college students, parents and increasingly, our differentially-able children and college students".

"The CCDF Grant has enhanced the Center's program quality in a number of ways. Additional staff was added in order to provide individualized support for some of our special needs students. This is a great enhancement as it allows us to meet the needs of our most specialized children in our care program. We have found this to be a continued need in our community and a unique service that the Center offers to our families. Our children have benefited through safe new play equipment including a loft, kitchen play areas, riding toys and swings which greatly impact our ability to meet the needs of children and provide high quality care for them. These additions not only address our students' gross motor needs, but also provide opportunities for them to interact with one another fostering language, social-emotional and intellectual development. CCDF grant funding has also allowed us to update various materials including books, changing tables, and puzzles so that we are able to maintain our status of high quality care".

"The grant has allowed us to purchase additional supplies and materials to create a successful atmosphere at the preschool. We have been able to incorporate additional goals and curriculum ideas as a result of the grant. These include: drama, music, and additional art activities. The students are also able to do more activities at the outdoor learning center. Through the grant, we were also able to meet the needs of licensing concerns with maintaining safety requirements. The grant also allows the preschool to provide additional staffing in the evening hours in order to make sure we can accommodate for our parents who work late".

2. CORE DESCRIPTION

The Missouri Assessment Program (MAP) represents the statewide, performance-based system of student assessment that is required by state and federal law. Core funding for the MAP supports all aspects of operational testing (development, production, administration, scoring, reporting results, and test refinement activities) for the mandated grade-level and End-of-Course assessments in English language arts, mathematics, social studies, personal finance, and science. Funds are used to administer, score, and report results for grade-level tests in English language arts and math, as per the requirements of the No Child Left Behind Act (NCLB). Funds are also used to support the necessary, ongoing test-development activities required to sustain grade-level testing in these two content areas and to pay for memberships in working groups (convened by the Council of Chief State School Officers) that focus on technical problems associated with performance-based assessment and school accountability systems.

PROGRAM DESCRIPTION

Department of Elementary & Secondary Education

Missouri Assessment Program

Program is found in the following core budget(s): Performance Based Assessment Program

1. What does this program do?

The Missouri Assessment Program (MAP) measures all students' progress toward attainment of the Show-Me Standards and is required by the state Outstanding Schools Act and federal No Child Left Behind (NCLB) legislation. Prior to FY06, the MAP system used grade-span tests, testing communication arts at grades 3, 7, and 11 and testing mathematics at grades 4, 8, and 10. In FY06, NCLB mandated an annual administration of grade-level tests in communication arts/English language arts and mathematics to all students in grades 3-8 and at a high-school grade. In FY08, science grade-span testing in grades 5, 8, and 11 became operational in compliance with NCLB. All grade-level assessments are performance-based, presenting students with selected-response items as well as open-ended questions that require a constructed response and delivered online using a computer adaptive assessment platform. The MAP also includes provisions for assessing students at grades 3-11 who have significant cognitive disabilities and, as a result, are unable to participate in the general education assessments. These students are evaluated using alternative methods that are compatible with their abilities and educational programs. Students who qualify for this provision take the MAP-Alternate (MAP-A). In FY09, Missouri moved to a MAP-End-of-Course (EOC) Exam system for high school tests. Missouri requires all students to participate in Algebra I, English II, and Biology for NCLB and also Government. Missouri also offers MAP-EOC exams for all students in Algebra II, Geometry, English I, and American History. Missouri is developing a new STEM assessment as a science EOC. Missouri graduation requirements require all students to obtain a .5 credit in personal finance. In FY08, Missouri developed a personal finance exam required for all students who receive this credit as part of a course in which personal finance content is embedded within another course.

The Missouri Assessment Program system provides detailed results for individual students as well as for groups of students. Educators use Missouri Assessment Program data to evaluate educational programs and services and to improve curriculum development and instructional practices. As of FY09, the English Language Learner-required NCLB exam for Title III is a part of the Missouri Assessment Program. Missouri NCLB mandated assessment for the measurement of English language proficiency is the WIDA ACCESS for ELLs. This assessment is required for all students who are currently eligible for ESL services under the guidelines of Title III.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Section 160.514, RSMo and No Child Left Behind Act of 2001 (Title VI, Part A) (CFDA #84.369A)

3. Are there federal matching requirements? If yes, please explain.

No.

4. Is this a federally mandated program? If yes, please explain.

The No Child Left Behind Act requires states to assess all students annually in reading/language arts (communication arts) and in mathematics at grades 3, 4, 5, 6, 7, and 8 and once at a high-school grade beginning with the 2005-06 school year. Science testing was required beginning with the 2007-2008 school year for one grade each at elementary, middle, and high school. Missouri assesses grades 5, 8, and Biology (EOC). The federal legislation requires state assessments to measure student achievement relative to the state's content standards and to yield results that can be used to determine whether a local school district is making adequate yearly progress.

7a. Provide an effectiveness measure.

1.) Missouri as a part of the test development process requires all assessment vendors to provide an extensive psychometric analysis in the form of a Technical Manual each year. As the results of these reports are both lengthy and cumbersome, they are archived and made available for reference on the webpages of the Assessment Section of the Department of Elementary and Secondary Education's (DESE) website. Most sections of these technical reports are designed to provide validity evidence to support the use of test scores. The source of data used for particular analyses is indicated throughout each Technical Report. Each assessment has its own Technical report; however, most are arranged within the same manner for ease of reference. The following is a brief summary of the information:

- Chapter 2 discusses the concept of validity and the uses of scores.
- Chapter 3 focuses on the test development process used to create the assessment. This is important to the content-related validity of the scores.
- Chapter 4 presents information on test administration.
- Chapter 5 discusses the scoring of constructed-response items, as well as the results of the inter-rater reliability studies.
- Chapter 6 (only found in the grade level report) presents the scaling and linking procedures as well as the results of other operational data analyses.
- Chapter 7 reviews the results of the operational administration and overviews the score reports sent to parents, schools, and districts.
- Chapter 8 highlights the standard setting procedures used.
- Chapter 9 discusses reliability and construct-related validity. The grade-level Mathematics should measure one primary dimension -Mathematics.
- Chapter 10 overviews the statistical and development processes used to assure fairness of the assessment for all examinees. Some analyses in this document are based on the calibration sample while others are based on census data.

2.) All testing materials will be provided to districts in a timely manner prior to testing in accordance with the contractual agreement.

7b. Provide an efficiency measure.

PROGRAM DESCRIPTION

Department of Elementary and Secondary Education

Perkins Grant

Program is found in the following core budget(s): Career Education Distribution

1. What does this program do?

The Carl D. Perkins Career and Technical Education Act of 2006 allows the 519 local education agencies that operate Department-approved career and technical education programs, services, and activities for secondary, postsecondary and adult students to prepare a highly skilled workforce.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Carl D. Perkins Career and Technical Education Act of 2006

3. Are there federal matching requirements? If yes, please explain.

Yes--The State must match on a dollar-for-dollar basis the funds reserved for administration. The hold-harmless requirement in the Federal legislation indicates that a State must provide an amount that is not less than the amount provided by the State for administration in the preceding fiscal year. The maintenance of effort requirement indicates a State must provide funding for career and technical education programs at least at the level of support of the previous year.

4. Is this a federally mandated program? If yes, please explain.

No.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

PROGRAM DESCRIPTION

Department of Elementary & Secondary Education

Title I, Part A

Program is found in the following core budget(s): Title I

1. What does this program do?

Title I, Part A, ensures that all children have the opportunity to obtain a high-quality education and reach proficiency on challenging state academic standards and assessments. As the largest federal program supporting elementary and secondary education, Title I targets these resources to the districts and schools where the needs are greatest. Title I provides flexible funding that may be used to provide additional instructional staff, professional development, extended-time programs, and other strategies for raising student achievement in high-poverty schools. The program focuses on promoting school wide reform in high-poverty schools and ensuring students' access to scientifically based instructional strategies and challenging academic content. Title I provisions provide a mechanism for holding states, school districts, and schools accountable for improving the academic achievement of all students and turning around low-performing schools, while providing alternatives to students in such schools to enable those students to receive a high-quality education.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

No Child Left Behind Act of 2001 (84.010A)

3. Are there federal matching requirements? If yes, please explain.

No.

4. Is this a federally mandated program? If yes, please explain.

No.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

7a. Provide an effectiveness measure.

Increase to 100% by 2011 the number of Missouri public school core academic courses taught by highly qualified teachers with the appropriate grade and subject certification

Source: DESE School Core Data and Teacher Certification records, September 2011

About the measure: This measure was developed by DESE to monitor one aspect of teacher quality in Missouri - do Missouri's highly qualified teachers have the appropriate qualifications to teach their assigned courses? The Core Data system is used to identify classroom teachers and their assignments, and that information is then compared with teachers' certification records. The various courses and required teaching certificates are listed in the Core Data manual (Exhibit 10).

PROGRAM DESCRIPTION

Department of Elementary & Secondary Education

Migrant

Program is found in the following core budget(s): Title I

1. What does this program do?

This program's goal is to support high-quality, comprehensive educational programs for migrant children to help reduce the educational disruptions and other problems that result from repeated moves. In addition, the program attempts to ensure that migrant children who move between states are not put at a disadvantage because of disparities in curriculum, graduation requirements, content, and student academic achievement standards.

Migrant students have many risk factors in common with other disadvantaged students (e.g., poverty, poor health, learning disabilities), but they also face additional challenges unique to their situations (e.g., disruption of education, poor record-keeping between schools, cultural and language difficulties, and social isolation). Because migrant students usually account for only a small percentage of the total student population, many schools and districts find it difficult to dedicate the level of resources that may be necessary to ensure the best educational experience possible for their migrant students.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

No Child Left Behind Act of 2001 (84.011A)

3. Are there federal matching requirements? If yes, please explain.

7a. Provide an effectiveness measure.

Objective 1: Migrant students will be ready for school as they enter Kindergarten:

Strategy 1: The State will identify migrant students ages 3 to 21 and inform districts of their residence in the district.

Strategy 2: Professional development opportunities will be provided to districts with Migrant students on how they can best use the Missouri Preschool Standards.

Objective 2: Migrant students will improve their MAP test scores by 3% or more annually in the areas of communication arts and mathematics.

The State will:

Strategy 1: Provide professional development opportunities to districts with Migrant students on authentic tasks and performance activities.

Strategy 2: Provide professional development opportunities to districts with Migrant students so they can provide students with instruction and guided practice in problem solving.

Strategy 4: Provide professional development opportunities to districts with Migrant students so they can incorporate teaching strategies for individual student differences and learning styles.

Objective 3: The annual drop-out rate for Migrants students in Missouri will be no greater than the state average

The State will:

Strategy 1: Collect data concerning Migrant student drop-out rates.

Strategy 2: Develop at-risk programs and services focusing upon attendance for migrant students.

Strategy 3: Identify alternative instructional strategies to meet the individual needs of migrant at-risk students.

About the measure: This measure was developed by DESE in conjunction with stakeholders to develop a comprehensive needs assessment that has been reviewed and approved by the U.S. Department of Education.

These funds provided services to the lowest performing 5% of schools in the state. Prior to FY 2014 these funds were located in a separate Appropriations Bill. The FY2014 budget request was \$5 million to expend carryover funds. All funds were expended in FY2013, therefore the core appropriation was not needed and has been eliminated

Education for Homeless Children and Youth

Program is found in the following core budget(s): Other Federal Programs

1. What does this program do?

The program provides for a State Homeless Coordinator to assist school districts in removing barriers in the education of homeless students. School districts that have an identified homeless population of 20 or more homeless children and youth per year are eligible to apply, on a competitive basis, for grant funds to provide educational support activities for homeless children and youth. Missouri uses approximately 5% of the award as state administration set-aside for duties associated with the Homeless Taskforce, regional homeless liaison meetings, and professional development for the state's homeless liaisons.

The Department also provides technical assistance, professional development, and coordinates with other state agencies.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

McKinney-Vento Homeless Assistance Act, Title VII, Subtitle B (CFDA Number 84.196A)

3. Are there federal matching requirements? If yes, please explain.

No.

4. Is this a federally mandated program? If yes, please explain.

Yes, this program is a federal mandate under the No Child Left Behind Act of 2001.

Comprehensive School Health (YRBSS Administrative)

Program is found in the following core budget(s): Other Federal Grants

1. What does this program do?

The cooperative agreement with the Department and the Centers for Disease Control is to help schools and other agencies that serve youth to implement coordinated school health programs to prevent HIV infection and other important health problems. The cooperative agreement was revised in FY10 to only administer the Youth Risk Behavior Surveillance System (YRBSS). The YRBSS monitors priority health-risk behaviors and the prevalence of obesity and asthma among youth and young adults. The YRBSS includes a national school-based survey conducted by the Centers for Disease Control and Prevention (CDC) and state, territorial, tribal, and local surveys conducted by state, territorial, and local education and health agencies and tribal governments. The YRBSS is administered every two years. YRBSS materials are produced and disseminated, to assist community prevention efforts and coordinated school health

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

PublicHealthService Act, Section 301(a) and 311 (b) (c), as amended (CFDA Number 93.938)

3. Are there federal matching requirements? If yes, please explain.

No.

4. Is this a federally mandated program? If yes, please explain.

No.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

7a. Provide an effectiveness measure.

The Center for Disease Control has set a return rate of 80% to obtain "weighted data". This data can then be used as a representative sample of Missouri's Students. Our goal is to obtain "weighted data" for every administration of the YRBSS.

7b. Provide an efficiency measure.

Percentage of schools that taught 8 key HIV, STD, and pregnancy prevention topics in a required course during grades 9,10, 11 or 12

Percentage of schools with a policy that addresses attendance of students with HIV infection, procedures to protect HIV-infected students and staff from discrimination, and maintaining confidentiality.

Percentage of secondary schools with a written policy protecting rights of students and staff with HIV/AIDS—Missouri, 1996 -2008

Weighted data was not obtained in 2012. No comparisons can be made to prior years.

PROGRAM DESCRIPTION

Department of Elementary & Secondary Education**Advanced Placement & International Baccalaureate Courses (Federal)****Program is found in the following core budget(s): Advanced Placement****1. What does this program do?**

High School students will be encouraged to take a more academically rigorous program of studies with incentives that greatly reduce their cost for the exam fees for Advanced Placement (AP) and International Baccalaureate (IB) exams. The federal grant pays all but \$10 of the exam fees for low income students in any subject area.

Federal grant funding pays \$45 of the cost of the AP exam fee after the College Board Reduction in any subject area. The Exam fee is \$89. The College Board reduction is \$26 and the school forgoes the \$8 administration fee for these students. Thus, this grant then will pay up to \$45 and the student pays the remaining \$10. Federal funding also pays for the IB subject exam fees for students in any subject area. The subject area fee is \$104. The grant fund pays \$94 of the IB exam fee and the student pays the remaining \$10. The criteria for the federal program are that the student take an AP or IB exam, they are a student in a MO school and they qualify for free or reduced price lunches.

The MOSIS/Core Data system is used to identify classroom teachers and their assignments, and that information is then compared with teachers' certification records. The various courses and required teaching certificates are defined by the MSIP and are listed in the Core Data manual (Exhibit 10).

2. CORE DESCRIPTION

The Public Charter Schools (PSCS) federal grant program was established to increase the understanding of the charter schools model by providing financial assistance for design and initial implementation of charter schools. These funds are to be awarded in sub grants to eligible applicants for planning, program design, and initial implementation of a charter school.

In FY2014 DESE received \$300,000 of General Revenue for the Charter Public School Commission established in statute 160.425 RSMo. This included \$77,928 and 2.0 FTE in PS and \$222,072 in E&E. For FY15 we are reallocating the 2.0 FTE and \$93,928 to the Division of Learning Services. The Charter Commission funding will remain in this program core.

7c. Provide the number of clients/individuals served, if applicable.

Charter Schools serve approximately 1% of the student population in Missouri. There are 34 charter schools in Kansas City and 21 in St. Louis. With legislation to allow charter schools statewide, the Department is expecting significant expansion of charter schools over the coming months.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

Funding is needed to support the Missouri Charter Public School Commission established in 160.425 RSMo. In FY14, the legislature approved \$206,072 for the Commission start-up costs. The fiscal note for the legislation required \$300,000 for the Commission start-up costs. This request is for the additional funding required under the statute.

From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one times and how those amounts were calculated.

The fiscal note for SB 576 called for \$300,000 for the Commission start-up costs. In FY14 DESE was awarded \$206,072 for this purpose. This request is for the difference (\$93,928) between the fiscal note the FY 14 appropriation.

6. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with & without additional funding.)**6a. Provide an effectiveness measure.**

In the last year the Department closed 9 underperforming Charter Schools. This funding will enable the Department to approve and evaluate sponsors in the future for better oversight. There will also be additional academic and fiscal standards put in place for Charter School accountability.

6b. Provide an efficiency measure.

By law, the Department has had little oversight of Charter Schools which has led to poor performance in some Charter Schools. This legislation will give the Department the ability to provide better oversight leading to higher quality schools.

7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:

The purpose of SB 576 is to ensure charter schools and charter sponsors are more accountable in Missouri. Recent data has shown a majority of Missouri Charter schools academic performance is below the St. Louis Public Schools and the Kansas City School District. The new law seeks to hold the charter schools and sponsors accountable like any other LEA in the state. The expectation of higher performing charter schools will be the goal.

PROGRAM DESCRIPTION

Department of Elementary & Secondary Education

Rural and Low-income Schools

Program is found in the following core budget(s): Rural and Low-income Schools

1. What does this program do?

The Rural Education Achievement Program (REAP) is designed to assist rural school districts in using federal resources more effectively to improve the quality of instruction and student academic achievement. It consists of two separate programs – the Small Rural School Achievement (SRSA) program and the Rural and Low-Income Schools (RLIS) program.

The SRSA program provides eligible local educational agencies (LEA) with greater flexibility in using the formula grant funds received under certain federal programs. The US Department of Education awards SRSA funds directly to eligible LEAs on a formula basis.

The RLIS program is an initiative that provides grant funds to rural LEAs that serve concentrations of children from low-income families. An LEA may use RLIS funds to support a range of authorized activities in order to assist the LEA in meeting its state's definition of adequate yearly progress.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

No Child Left Behind Act of 2001 (CFDA Number 84.358B)

3. Are there federal matching requirements? If yes, please explain.

No.

4. Is this a federally mandated program? If yes, please explain.

No.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

6. What are the sources of the "Other " funds?

N/A

7a. Provide an effectiveness measure.

AMAO 1: Growth in English Language Proficiency

This calculation uses data from two points. To meet the AMAO, all Limited English Proficient (LEP) students will need to meet the overall proficiency growth target as *measured by the ACCESS for ELLs™ English language proficiency test*. A district meets the AMAO when 25 percent of students in Cohort 1 and 20 percent in Cohort 2 meet the AMAO requirement. Both cohorts must meet objectives in order for the district to meet AMAO 1. Students are counted as meeting the AMAO 1 requirement when they increase their overall composite proficiency level score by .5 for students in Cohort 1 and by .3 for students in Cohort 2.

AMAO targets for Cohort 1 will increase by 3.86 percent annually and targets for Cohort 2 will increase by 4 percent annually.

Students Included in Growth Data

The AMAO for English language growth is measured by spring to spring scores on the ACCESS for ELLs™ test. Only students who have been in the program for one year or more are included. For this reason, kindergarten students and students who have never taken the ACCESS for ELLs™ test are not included in the growth data.

AMAO 2: Attaining English language proficiency

For this objective, ELLs are divided into the following two cohorts:

Cohort 1 – Students who have participated in language instruction educational programs for three or fewer years.

Cohort 2 – Students who have participated in language instruction educational programs for four or more years.

To attain English language proficiency, students identified as LEP must obtain an Overall Score (Composite) at a proficiency level of 5.0 on the ACCESS for ELLs®, with minimum proficiency levels of 4.0 on both the Reading and Writing domains. For a Title III sub grantee to meet AMAO 2, at least 8 percent of the students in Cohort 1 must attain English language proficiency and at least 12 percent of the students in Cohort 2 must attain English Language proficiency as defined. Both cohorts must meet objectives in order for the district to meet AMAO 2. The annual target will increase by 1 percent for each Cohort.

AMAO 3: Meeting Adequate Yearly Progress (AYP) Targets

A district is determined to have met AMAO 3 targets if the district-level LEP subgroups meet the AYP targets for both Communication Arts and Mathematics.

<p>The U.S. Department of Health and Human Services through the Refugee Children School Impact Grants Program provides the funding to states and school districts to defray some of the costs of educating refugee children. Funds from this grant support school districts' programs designed to enable refugee children to achieve the state's Show Me Standards of academic performance at a rate commensurate with that of the average of all children within a district. Programs also provided training opportunities to refugee families and to school personnel serving the refugee population as a whole. Three districts are eligible to receive sub-grants to provide quality services to meet the needs of refugee children, their families, and personnel serving them: Kansas City, Mehlville, and St. Louis City.</p>

Refugee Children School Impact Grants Program

Program is found in the following core budget(s): Refugee Program

1. What does this program do?

The Refugee Children School Impact Grants Program provides funds for education and support services to refugee students and their families in three Missouri school districts with the greatest number of refugee children. Activities will be directed to providing quality instructional and social support to help ensure the students can achieve at the same or better level as non-refugee students. Each district will be allocated a portion of the funds coming to the state based on a pro-ration of their student refugee population in grades K-12. Each district will select one or more of the following activities to conduct using the refugee funds:

- English language learning
- Interpreter services for parents at meetings/conferences
- Afterschool tutor services for understanding assignments
- Teacher training and professional development
- Parent-involvement programs
- Revisions to curricula to optimize the acquisition of skills
- Bilingual/bicultural counselors/aides
- Utilization of modern technology (ELLs)
- Use of special education materials (refugee children with disabilities)
- Afterschool/summer programs (remedial/readiness)
- Programs enhancing cultural competence

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Section 412 (c)(1)(A) of the Immigration and Nationality Act (INA)(8 U.S.C. §1522 (c)(1)(A),

3. Are there federal matching requirements? If yes, please explain.

No.

4. Is this a federally mandated program? If yes, please explain.

No.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

6. What are the sources of the "Other " funds?

7a. Provide an effectiveness measure.

Targets for percentage of districts receiving Refugee funds to attain the Annual Measurable Achievement Objective (AMAO) #1

Year	Targets	Met
2007	78%	Yes
2008	78%	Yes
2009	-	*
2010	50%	No
2011	51%	Yes
2012	52%	**

AMAO 1: Progress in Learning English

Cohort 1 – Students who have been in the district receiving ELL instruction three years or fewer

Cohort 2 – Students who have been in the district receiving ELL instruction four years or more

For this calculation we will use data from two data points. To meet the AMAO, students will need to meet the growth target and must maintain or increase the scale score in each modality. A district meets the AMAO when 50 percent of students in cohort 1 meet the AMAO requirement and 65 percent of the students in cohort 2 meet the requirement.

AMAO targets for each cohort will increase by one percent annually.

* The State changed the English Language Proficiency assessment in 2009 and was not able to make a comparison from one assessment to the next to measure progress.

** Data not yet available

With the 2009 elimination of previously appropriated School Improvement Initiative funds, providing meaningful supports and interventions has become a challenge for the state. Funds are requested for the Missouri School Improvement Program (MSIP) and its statewide focus on Missouri's student achievement ranking among the top 10 states by 2020; for the Missouri Turnaround Network (MTN) and its targeted focus on improving Missouri's lowest-performing districts; and for the Missouri Leadership for Excellence, Achievement and Development (MoLEAD), an executive leadership training designed to develop Missouri's PK-12 education leaders.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

MoLEAD: PS is based on salaries of 1 FTE (Supervisor - \$40,248) and 1 FTE (Admin Assistant - \$29,112). E&E consists of travel, supplies, equipment and communication costs for 2.0 Department FTE. Also included in E&E: \$63,839 for a contract for coordination and evaluation of the program; \$464,704 for training expenses - contract with National Institute for School Leadership and trainer candidate expenses, stipends, and supplies. Training costs based on 100 participants and 20 trainer candidates for 26 training days in 4 regions with 2 trainers. The total average per participant program cost for Cadre III attendees is \$7,491.71. Each participant funded with General Revenue will be required to pay \$2,000 to participate in Cadre III. This participant payment into the Revolving Fund represents 26% of the participant program cost. The Revolving Fund will then be used to pay part of participant fees due to NISL. The participant payment will also illustrate the district's or individual's commitment to finish Cadre III.

MTN: PS is based on salaries of 1 FTE (Coordinator - \$88,656), 3 FTE (Regional Supervisor - \$72,840 each), and 1 FTE (Admin Assistant - \$29,112). 2. CORE DESCRIPTION

Vocational Rehabilitation is a state/federal employment program to assist individuals with physical or mental disabilities to choose, prepare for, and engage in gainful employment consistent with their interest, capabilities, and informed choice. Vocational Rehabilitation assists individuals with disabilities to maximize their employment, economic self-sufficiency, and integration into their community by providing individualized employment services. VR serves eligible individuals whose disabilities are a substantial barrier to employment: who require VR services to prepare for, secure, retain, or regain employment; and who can benefit from VR services in terms of an employment outcome. Individuals with significant disabilities may need extensive services to function effectively in the job market. Many of these individuals lack the guidance and resources needed to secure necessary training, medical assistance, and other related services. The Vocational Rehabilitation program is able to assist individuals with disabilities to obtain employment through needed services such as guidance and counseling, diagnosis, physical restoration, training, placement, and related services. The minimum match rate for this program is 21.3 % from State sources.

The statutory authority for the Vocational Rehabilitation program is from the Rehabilitation Act of 1973, as amended (29 U.S.C. 701-744) and Section 178.590, RSMo.

PROGRAM DESCRIPTION

Department of Elementary and Secondary Education

Office of Adult Learning and Rehabilitation Services

Program is found in the following core budget(s): Vocational Rehabilitation

1. What does this program do?

Vocational Rehabilitation is a state/federal employment program to assist individuals with physical or mental disabilities to choose, prepare for, and engage in gainful employment consistent with their interest, capabilities, and informed choice. Vocational Rehabilitation assists individuals with disabilities to maximize their employment, economic self-sufficiency, independence, and integration into their community by providing individualized employment services. VR serves eligible individuals whose disabilities are a substantial barrier to employment: who require VR services to prepare for, secure, retain, or regain employment; and who can benefit from VR services in terms of an employment outcome. Individuals with significant disabilities may need extensive services to function effectively in the job market. Many of these individuals lack the resources and guidance needed to secure necessary training, medical assistance, and other related services. The Vocational Rehabilitation program is able to assist individuals with disabilities to obtain employment through needed services such as guidance and counseling, diagnosis, physical restoration, training, placement, and related services. Research has shown that for every VR dollar spent, the combined federal, state, and local tax treasuries benefit by \$2-\$4 in revenues over subsequent years of work. A return on investment study conducted by the University of Missouri-Columbia Department of Economics determined the total annual funding (state and federal) for the vocational rehabilitation program is returned in actual earnings three years after the fiscal year. These earnings are actual earnings as reported by the Division of Employment Security wage records.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

The statutory authority for the Vocational Rehabilitation program is from the Rehabilitation Act of 1973, as amended (29 U.S.C. 701-744) and Section 178.590, RSMo

3. Are there federal matching requirements? If yes, please explain.

The match rate for this program is 78.7% federal and 21.3% state sources.

4. Is this a federally mandated program? If yes, please explain.

Yes, the Rehabilitation Act of 1973 establishes the requirement for a designated state unit to carry out the provision of the Act.

2. CORE DESCRIPTION

Section 161.182, RSMo directs the State Board of Education to enter into an agreement with the Commissioner of the Social Security Administration (SSA) to make determinations of disability under the Social Security Act. Determinations of disability are primarily based on medical and vocational information. The Federal Government, either through the Social Security Trust Fund or with Supplemental Security Income funds, pays recipients of disability benefits. The Disability Determination program operations are totally funded with federal funds. An estimated 105,000 Missourians, based on Social Security workload estimates, will have determinations of disability made by the program in FY2015. Funding and staffing will provide quality decisions in a timely manner for Missouri citizens.

PROGRAM DESCRIPTION

Department of Elementary and Secondary Education

Office of Adult Learning and Rehabilitation Services

Program is found in the following core budget(s): Disability Determinations

1. What does this program do?

The Disability Determinations Section makes determinations of disability under the Social Security Act primarily based on medical and vocational information. Section 161.182, RSMo directs the State Board of Education to enter into an agreement with the Commissioner of the Social Security Administration (SSA) for these purposes. The Disability Determinations program operations are totally funded with federal funds. An estimated 105,000 Missourians, based on Social Security workload estimates, will have determinations of disability made by the program in FY15. Funding and staffing will provide quality decisions in a timely manner for Missouri citizens.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Section 161.182m, RSMo provides the statutory authority for the Disability Determination operations.

3. Are there federal matching requirements? If yes, please explain.

No. Disability Determinations is 100% federally funded.

4. Is this a federally mandated program? If yes, please explain.

Yes, the Social Security Act establishes the requirements to carry out the provisions of Disability Determinations

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

2. CORE DESCRIPTION

Many individuals with disabilities need additional support services to live independently within their own community. The twenty-two (22) Centers for Independent Living (CIL's) throughout the state provide information and referral, advocacy, peer counseling, and independent living skills training within their communities. They assist individuals with disabilities in providing supports with social, physical, psychological, and other issues faced that are necessary to live independently. Programs and services provided by the CIL's to consumers result in individuals with disabilities accessing community resources to manage personal needs. CIL's assist in educating community leaders to improve the quality of life for all community members. They also assist in achieving access to and developing alternative services to lessen the monetary strain on state and local service agencies. Independent living skills training increases the quality of life for persons with disabilities and enhances their family life. These services benefit persons with disabilities by allowing them to live independently, increasing their self-esteem, and reducing their reliance on public assistance.

Note: A portion of the Independent Living Centers' funding was switched from GR to the ILC Fund (0284) in SFY14 because the fund had accumulated excess revenues. Projected revenues supporting ILC Fund will not be sufficient to support the current funding level established. Therefore, a new decision item is requested to restore GR funding to the SFY13 level and reduce the ILC Fund obligations to an amount supported by the revenues to the fund.

NOTE: As of 7/1/2013 \$95,259 of this program was put into expenditure restriction by the Governor.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

Funding supporting the 22 Independent Living Centers throughout the state has been reduced by \$910,000 since SFY09. This decision item would restore half of this funding.

Many individuals with disabilities need additional support services to live independently within their own community. The twenty-two Centers for Independent Living (CIL's) throughout the state provide information and referral, advocacy, peer counseling, and independent living skills training within their communities. They assist individuals with disabilities in providing supports with social, physical, psychological, and other issues faced that are necessary to live independently. Programs and services provided by the CIL's to consumers result in individuals with disabilities accessing community resources to manage personal needs. CIL's assist in educating community leaders to improve the quality of life for all community members. They also assist in achieving access to and developing alternative services to lessen the monetary strain on state and local service agencies. Independent living skills training increases the quality of life for persons with disabilities and enhances their family life. These services benefit persons with disabilities by allowing them to live independently, increasing their self-esteem, and reducing their reliance on public assistance.

Sections 178.651- 658, RSMo provides the statutory authority for the Independent Living Services within Vocational Rehabilitation.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The High Need Fund was established pursuant to Section 162.974, RSMo, to provide funding support for districts with "High Need" students. These students are special education students whose educational costs exceed three times the district's Current Expenditure per Average Daily Attendance (ADA). Reimbursement to districts under the High Need Fund for qualifying students is made without regard to disability or placement. Educational costs may include: Instructional costs, Related Services, Transportation, Tuition, Assistive Technology, and other miscellaneous expenditures directly related to the student's education and supported by the student's Individualized Education Program (IEP).

The High Need Fund continues to grow approximately 7-10% in requests for reimbursement per year. This is due to an increase in the number of students claimed, an increase in awareness and technical assistance related to the fund (increase in the number of schools submitting applications), an increase to the overall cost of special education services, and a decrease in federal funding due to sequestration.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

Trends show a 7-10% increase in reimbursement requests per year. Based on a 10% increase in reimbursement requests, the following projections were calculated.

FY13 Reimbursement Request: \$40,605,211
 Projected FY14 Reimbursement: \$44,700,000 (with additional federal funding considered, there is an approximate \$6,000,000 shortfall in funding)
 Projected FY15 Reimbursement: \$49,170,000 (with additional federal funding considered, there is an approximate \$10,400,000 shortfall in funding)

PROGRAM DESCRIPTION

Department of Elementary and Secondary Education

First Steps

Program is found in the following core budget(s): First Steps

1. What does this program do?

First Steps is an early intervention program for infants and toddlers, birth to age three, who have delayed development or diagnosed conditions that are associated with developmental disabilities. The goal of First Steps is to make sure that the family has the necessary supports, services and resources needed to raise a healthy and successful child. The program will:

- Enhance the development of infants and toddlers with disabilities and minimize their potential for developmental delay.
- Reduce educational costs by minimizing the need for special education and related services upon reaching school age.
- Enhance the capacity of families to meet the special needs of their infants and toddlers with disabilities.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

IDEA - 20 U.S.C §1401 et seq., as amended in 2004; Part C Regulations - 34 CFR 303; State Statute - Sections 160.900-160.933, RSMo.

3. Are there federal matching requirements? If yes, please explain.

Yes. There are Maintenance of Effort (MOE) requirements related to the IDEA Part C federal grant and matching requirements for Medicaid Claiming. Maintenance of Effort requires the state to appropriate the same amount of state/local funds for the program as it did the previous year. The threshold must be maintained or the state will forfeit federal funding for each year the state does not meet the original threshold. Medicaid requires the First Steps program to match approximately 40% of the cost from state/local funds.

4. Is this a federally mandated program? If yes, please explain.

Yes. The state is federally mandated as long as it applies for Part C funding through IDEA.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

IDEA - 20 U.S.C §1401 et seq., as amended in 2004; Part C Regulations - 34 CFR 303; State Statute - Sections 160.900-160.933, RSMo.

First Steps is the Early Intervention System in the State of Missouri for infants and toddlers, birth to age three, who have delayed development or diagnosed conditions that are associated with developmental disabilities. The First Steps program is governed through Part C of the federal Individual with Disabilities Education Act (IDEA), which is an entitlement program. Per sections 160.900-933, RSMo, the Office of Special Education is responsible for the administration, implementation, and general supervision of the Early Intervention System.

The program is currently operating on a deficient due to significant increase in children served, new federal regulations, shortfalls in private insurance collections, and uncollectable family service fees. Stimulus and other federal grant funds have helped sustain the program, but these funds are no longer available. In FY15, expenditures are estimated to be around \$39,500,000 with appropriations and other revenues anticipated at approximately \$31,000,000 (shortfall of \$10,500,000).

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The number of children referred and evaluated in First Steps has significantly increased from 9,864 in FY11 to 11,194 in FY13 (increase of 1,330 children). Even though not all of these kids are found eligible to participate in the program, there are costs associated with having to complete the referral and evaluation process to determine eligibility. Currently, First Steps serves 2.28% of the eligible population, but based on a growth study, it is anticipated that 2.58% of the population is eligible for program services; therefore a continual increase in child count is expected (approximately 700 more children).

There is an anticipated decline in Family Cost Participation income due to new federal regulations that won't allow families to be charged a higher fee for refusal of financial/insurance information. In addition, the federal regulations require the state to ensure a family does not pay more than the cost of the service considering private insurance collections.

There is an anticipated decline in private insurance collections as more and more companies elect to process direct claims over percentage payments to the program. Direct claims are continuously denied for payment and require extensive follow-up to retrieve payment. In FY12, private insurance collections were \$1,051,739 compared to \$604,013 in FY13 (Decrease of \$447,726). In addition, only 13% of the insurance carriers in Missouri are required to contribute to the cost of First Steps services.

There is a reduction in Federal Part C Grant award due to sequestration. Grant funds have decreased from \$7,909,044 in FY13 to \$7,514,098 in FY14 (Decrease of \$394,946), with an anticipated 8% reduction in FY15.

A re-bid of SPOE contracts will increase program costs as current contracts expiring in June 2014 already have service coordinators (120 FTE) over caseload requirements (40-60 children per coordinator), thus an increase to the number of service coordinators will be needed in the next rebid to meet caseload standards, which will be an additional increase in cost.

There is a necessary amendment to the CFO contract to align system, payment collections, monitoring, and oversight with new federal regulations. This will require several enhancements to the current web-based system.

Program is found in the following core budget(s): DFS/DMH Placements/Public Placement Fund

1. What does this program do?

Through an application process, the Public Placement Fund annually reimburses school districts for educating non-domicile publicly placed students. Revenues are subtracted from the educational costs to determine any "excess" costs. Districts are eligible for reimbursement of the excess costs if the student was publicly placed and served by a non-domicile district.

Reimbursement may be prorated based on the number of applications submitted and the available appropriation amount.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Section 167.126(4), RSMo.

3. Are there federal matching requirements? If yes, please explain.

No.

4. Is this a federally mandated program? If yes, please explain.

No.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

2. CORE DESCRIPTION

Per Section 178.900, RSMo, the Department of Elementary and Secondary Education shall pay monthly to each sheltered workshop a sum equal to ninety-five dollars for each standard workweek (Monday through Friday) of up to and including thirty hours worked during the preceding calendar month. Nineteen dollars shall be paid for each six-hour or longer day worked by a handicapped employee on Saturdays or Sundays. For each handicapped worker employed by a sheltered workshop for less than a thirty-hour week or a six-hour day on Saturdays or Sundays, the workshop shall receive a percentage of the corresponding amount normally paid based on the percentage of time worked by the handicapped employee.

This funding provides employment for adult workers who are unable to compete in the open (competitive) job market and who are likely unable to find jobs at the level of performance they are capable. Funds are disbursed to 90 non-profit sheltered workshops located across the state providing "sheltered" employment to approximately 7,300 adults with severe disabilities.

Missouri Commission for the Deaf and Hard of Hearing
Commission for the Deaf

Budget Unit 52415C

2. CORE DESCRIPTION (con't.)

\$103,739 of the "Other" E&E represents spending authority for the "Certification of Interpreters Fund." By law, that fund receives its revenues exclusively from fees charged to interpreters for services provided by MCDHH as part of the Missouri Interpreters Certification System (MICS). Expenditures from this fund are limited exclusively to the maintenance of the MICS. An additional \$152,762 of "Other" money is spending authority for the MCDHH Fund (\$33,762 for PS and \$119,000 for E&E). That fund has some PS spending authority, in addition to E&E, in case MCDHH should get a grant or contract and need to hire a part-time employee. The MCDHH Fund is primarily for the deposit of contributions and gifts to MCDHH. The real balance in that fund is very minimal and cannot be counted on as a reliable or significant source of expendable E&E monies for MCDHH.

Assistive Technology Program

Program is found in the following core budget(s): Missouri Assistive Technology

1. What does this program do?

The Missouri Assistive Technology Program:

- 1) operates a short-term device loan program allowing schools and agencies to try-out devices before buying (Equipment Technology Consortium - ETC);
- 2) reimburses schools for the purchase of high cost assistive devices for students with disabilities (Assistive Technology Reimbursement - ATR);
- 3) operates equipment exchange and recycling programs allowing consumers and agencies to cost effectively buy "pre-owned" adaptive equipment;
- 4) provides funding for home modifications and adaptive equipment for children with special health care needs (Kids Assistive Technology Program - KAT);
- 5) provides adaptive telephones and adaptive computer equipment for basic telephone and internet access (Telecommunications Access Program - TAP);
- 6) provides low interest financial loans to enable the purchase of assistive technology and home modifications;
- 7) in conjunction with the Office of Information Technology, supports agency conformance to state IT access statutes and standards;
- 8) delivers training, technical assistance (TA) and information supports to consumers, disability service providers, state agency personnel and others; and
- 9) operates device demonstration programs allowing consumers and families hands-on exploration to decide which devices meet their needs.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

PL 105-394 Assistive Technology Act, Section 4, 29 U.S.C. 3003 (CFDA 84.224A and C) and RSMo 191.850-867 and 209.251-259

3. Are there federal matching requirements? If yes, please explain.

Part of the Assistive Technology Act has a match requirement and there is also a non-supplanting requirement associated with the core state grant program.

4. Is this a federally mandated program? If yes, please explain.

The Assistive Technology Act requires the programs and services described above (except ATR which is funded with IDEA federal dollars and KAT funded by federal Health dollars.) The Telecommunications Access Program is required by state statute.

The PSD in the decision item is to allow Missouri Assistive Technology to expend available other funds to meet anticipated demand for low-interest loans for assistive technology. The mission of Missouri Assistive Technology is to increase access to adaptive equipment needed by individuals with all types of disabilities, of all ages in all parts of Missouri. Assistive technology includes devices needed to address hearing, vision, mobility, speaking, writing, learning and other functional limitations and enables individuals with disabilities to live, work, and learn independently.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The PSD amount is based on the assumption that the number of low-interest loans provided for individuals with disabilities and their families will increase by an estimated 15 loans averaging \$7,000.
